

Sport Horse

McMillan Sport Horse is a high quality muesli feed designed to meet the increased nutritional demands of the performance horse, providing balanced energy from both starch and vegetable oil sources. The inclusion of organic yeast culture helps to maximise digestibility and ensure a healthy digestive system. Contains natural vitamin E and Zinpro organic minerals.

SPORT HORSE DELIVERS:

- Digestible energy from steam flaked grains and high quality vegetable oil to provide for all work types
- Highly bioavailable Zinpro organic trace minerals including chromium for enhanced exercise tolerance and support during recovery
- Natural vitamin E and organic selenium for powerful antioxidant protection
- Organic yeast culture for improved gastrointestinal health

FEEDING GUIDE:

Sport Horse has been formulated to complement New Zealand forages and provide the correct balance of all essential nutrients when fed at the following levels daily:

BODY WEIGHT	400kg	500kg	600kg
Light Work	2–3kg	3–4kg	4–5kg
Medium Work	3–4kg	4–5kg	5–6kg
Heavy Work	4–5kg	5–6kg	6–7kg

The above table is a guide only and the amount fed should be adjusted according to the horse's age, temperament, condition, body weight and workload.

When combined with forage, the above indicated amounts of Sport Horse will provide more than the minimum National Research Council (NRC) requirements for each essential nutrient.

QUALITY GUARANTEED

Our commitment to quality ensures that only the finest ingredients available are included in the McMillan range of equine feeds.

TYPICAL ANALYSIS (DM BASIS)

Crude Protein	Fat	Fibre (max)	Energy (DE)	Salt
17%	7%	8%	14.5MJ/kg	1.25%

NUTRIENT COMPOSITION

Nutrient	As Fed (Per kg)	Dry Matter (Per kg)
Energy (DE)	3 Mcal	3.5 Mcal
