

Rapid Gain

McMillan Rapid Gain is a highly digestible feed formulated for horses requiring muscle development and improved body condition. Contains steam flaked grains for optimum digestibility and high quality protein sources that contain the ideal ratio of essential amino acids. The inclusion of organic yeast culture helps maximise digestibility and ensures a healthy digestive system. Contains Zinpro organic minerals and natural vitamin E.

RAPID GAIN DELIVERS:

- Quality protein to assist with muscle development and maintenance
- Highly digestible cold pressed canola oil for optimum conditioning
- Zinpro organic trace minerals including zinc, copper, manganese and chromium
- Organic selenium and natural vitamin E for superior antioxidant protection

FEEDING GUIDE:

Rapid Gain has been formulated to complement New Zealand forages and provide the correct balance of all essential nutrients when fed at the following levels daily:

BODY WEIGHT	400kg	500kg	600kg
Spelling	1–3kg	2–4kg	3–5kg
Light Work	2–3kg	3–4kg	4–5kg
Moderate Work	3–4kg	4–5kg	5–6kg

The above table is a guide only and the amount fed should be adjusted according to the horse's age, temperament, condition, body weight and workload.

When combined with forage, the above indicated amounts of Rapid Gain will provide more than the minimum National Research Council (NRC) requirements for each essential nutrient.

*Includes natural Vitamin E and organic minerals.

DISCLAIMER. All analysis and nutritional information is presented in good faith. Some variations in values may occur. McMillan Equine Feeds accepts no responsibility if this feed is used in a manner or quantities that are not in accordance with its recommendations.

QUALITY GUARANTEED

Our commitment to quality ensures that only the finest ingredients available are included in the McMillan range of equine feeds.

Rapid Gain

INGREDIENTS SELECTED FROM:

Steam-Flaked Barley, Steam-Flaked Maize, Steam-Flaked Peas, Beet Pulp Shreds, Flaxseed Flake, Sunflower Seeds, Full Fat Soyabean Meal, Full Fat Canola Meal, Cold Pressed Canola Oil, Molasses, McMillan Balancer Pellets, Salt, Organic Yeast Culture, KER Vitamin and Mineral Pre-mix containing Zinpro organic minerals, Natural Vitamin E.

IMPORTANT INFORMATION:

Always provide access to adequate forage such as pasture, hay and chaff to ensure optimum digestive physiology. At least 1.5% of the horse's body weight in forage should be provided daily.

Ensure no more than 2.5kg concentrate per 500kg body weight is fed per meal.

Store in a cool, dry place out of direct sunlight.
